

My husband and I listen to K-LOVE which is an FM station. This station is important to us because it gives us hope and direction that corresponds with our faith. Recently, this station has not been available to us and we are missing it very very much. To think that this station will not be available ever again due to preferred treatment to LPFM stations is disturbing! We want our K-LOVE station

back and we want it to stay available for our community. It's message of hope and love changes lives everyday. Can your LPFM stations claim that? It has positive music without profanity. It is uplifting and needed. To remove K-LOVE from this community is a form of censorship.
